

MY FACE IS A MASTERPIECE COLLAGE ART COMPETITION ENTRY FORM

Why focus on collage?

Throughout the years, artists have used collage to bring attention to social injustices by using diverse materials and imagery to communicate complex messages about social issues like racial injustice, economic disparities, struggles of marginalized communities, equality, civil rights, power, gender, identity, and immigration. This approach challenges viewers to think critically about societal values. Our goal is for people to understand the discrimination and prejudice often experienced daily by people with facial disfigurement/ differences.

Collage encourages conversation and engagement in a visually compelling way. Communication fuels change!

Please complete the following information and submit it with your entry.

1. **Name:** _____
2. **School** (If applicable) _____
3. **Grade:** _____
4. **Email address:** _____
5. **Phone:** _____
